Your product

Installation instruction
located at the end of
the instruction manual

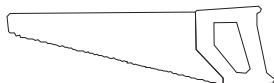

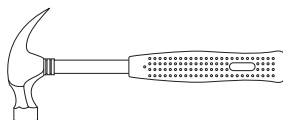

You will need

To install your window (items not supplied)

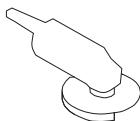

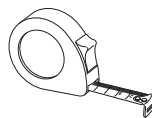

Philips/Pozidrive #2

L=75mm x8

4x30mm x8

Check that you have noted all the following instructions:

-  Carry out the installation from the inside of the building.
-  Never leave any object resting on the external face of the roof and section off the area below.
-  Ensure installation meets the requirements of Building Regulations and does not compromise the structural integrity of the roof.
-  Protect hands during installation.
-  Protect glass from damage when handling and during installation.

Read the instruction manual completely and carefully before commencing installation.

Wear suitable protective equipment during installation.

It is recommended that you wear safety masks and goggles, when cutting any internal materials in the roof or when cutting tiles.

It is strongly recommended that a qualified professional undertakes the installation of this product.

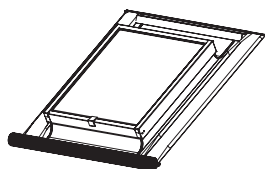

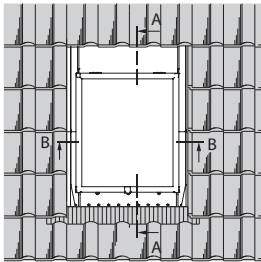

IMPORTANT: Retain this information for future reference, read carefully

A - A: Vertical cross-section: skylight in the roof
B - B: Horizontal cross-section: skylight in the roof

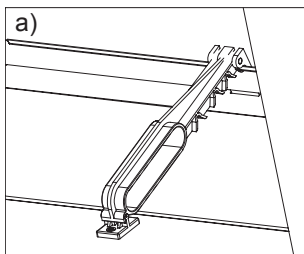

In more detail...

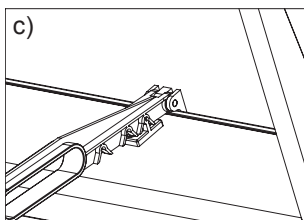

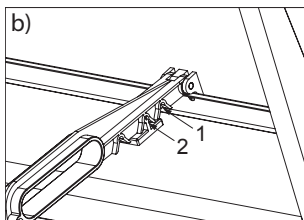

Golden rules for care

- 1 Ensure adequate ventilation to minimise condensation.
- 2 Remove dust and dirt with a soft cloth using a mild detergent and water solution.
- 3 Lubricate hinges every year.
- 4 At least every 4 years apply a suitable primer and varnish to the timber frame.

Operation and ventilation

The handle can be set in 4 positions:
 a) permanent ventilation for draught-free, even ventilation
 b) microventilation - 2 positions
 c) closed.

Technical specifications

B&Q plc, Chandlers Ford Hampshire SO53 3LE 13
EN 14351-1:2006 + A1 DoP No. BQDP-0016-CPR02042013
Geom Aero Skylight intended to be used in non heated domestic locations Resistance to wind load - Test pressure: Class 3 Resistance to wind load - Frame pressure: Class C/B Resistance to snowload: 3-9-3 Reaction to fire: C-s2,d0 External fire performance: Broof(t1) Watertightness - Non-shielded (A): 4A Watertightness - Shielded (B): npd Impact resistance: Class 2 Load-bearing capacity of safety device: npd Acoustic performance: npd Thermal transmittance: npd Radiation properties - Solar factor: 0,79 Radiation properties - Light transmittance: 0,82 Air permeability: Class 2
