The 4 golden rules for care

1

Use warm soapy water and a soft damp cloth to clean the surface of the product. Wipe dry with a clean cloth.

2

To remove stubborn stains, use a mild non-scratch formula cleanser and rinse well.

3

Never use any solvents, scourers, abrasives, bleach, acids, strong detergents, aggressive chemical cleaners or solvent-type cleaning solutions on the product.

4

Hard water may results in a brown or rust coloured stain. If noticed, use a towel to dry your sink after each use.

The 4 golden

Failure to follow these instructions may result in personal injury, damage to the product and property damage.

Beware of the sharp edges. It is recommended that you wear gloves when handling the sink during installation.

CAUTION: To avoid the risk of static electric shock, the sink must be bonded to earth. If in doubt, seek the advice of a professionally qualified electrician.

Kitchen sinks are capable of being damaged if they are treated harshly and care should be taken to avoid/minimize the possibility of dropping any objects into the sink.

Avoid leaving household bleaches or household chemicals in prolonged contact with your sink.

Use a trivet or mat to avoid direct contact of very hot objects to the sink surface.

Never use steel wool or other abrasive cleaning pads.

Conformity with 1935/2004/EC

Getting started

Check to make sure you have all of the parts listed.

When you are ready to start, make sure you have the right tools to hand.

If you are in any doubt as to how to install this product, consult an expert.
