

Declaration of Compliance

We Tianjin Jinmao Imp.&Exp.Corp.,Ltd, hereby claim that we are aware of On July 17, 2023, the European Union (EU) issued Regulation (EU) 2023/1464 (the Regulation) to regulate formaldehyde and formaldehyde-releasing substances in articles.

REACH Annex XVII Entry 77 restriction on Formaldehyde

Regulation (EU) 2023/1464 of July 14, 2023, amending Annex XVII of REACH as regards formaldehyde and formaldehyde releasers, Official Journal of the EU, July 17, 2023			
Scope	Requirement	Method	Effective Date
Furniture and wood-based articles*	$\leq 0.062 \text{ mg/m}^3$	Chamber method as described in Appendix 14, paragraph 1	After August 6, 2026
Articles other than furniture and wood-based articles*	$\leq 0.080 \text{ mg/m}^3$		
Interior of road vehicles, including trucks and buses*	$\leq 0.062 \text{ mg/m}^3$	Ambient mode according to ISO 12219-1 or ISO 12219-10 (see Appendix 14, paragraph 2)	After August 6, 2027

*See restriction document for exemptions

For non-wood based articles, please check if there's any formaldehyde releaser in the product and make sure the product is compliant with the regulation.

High risk areas/materials(articles contain below high risk materials may have this risk):

- *Electronics*
- *Toys*

- *Treated textiles (except exemption below)*
- *Leather*
- *Resins - (cured)(e.g. Epoxy resins,Urea-Formaldehyde(UF)Resin and Phenoic Resin)*
- *Lacquers - (cured) / Paper based coatings*
- *Glues – (cured) (e.g. glue with formaldehyde releaser)*

If there's any product that is **not compliant** with this regulation before the enforcement date, please let us know and state below.
