

SAFETY DATA SHEET (REGULATION (EC) n° 1907/2006 - REACH)		Date: 22/02/2024, Version: N°2
SAFETY DATA SHEET (REACH regulation (EC) n° 1907/2006 - n° 2015/830)		
1.1.Product identifier Product name: Wooden box SKU: JAN-CD-SKLEJKA-A4-5PACK-24mm		
1.2.Relevant identified uses of the substance or mixture and uses advised against none 1.3. Details of the supplier of the safety data sheet Registered company name: MyEveryDayHome.com LTD 7 Forest Court, Forest Side E46BJ London, UK support@myeverydayhome.com Emergency telephone number: 112		
Section 2. Hazard identification 2.1. Classification of the substance or mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]. Pursuant to the applicable regulations, the product is not classified as hazardous 2.2. Label elements Hazard pictograms: None Signal word: None Hazard statements: None Precautionary statements: None Hazardous ingredients: None Supplemental label elements: None 2.3. Other hazards The components do not meet the PBT or vPvB criteria according to Annex XIII of REACH.		
Section 3. Composition / information on ingredients 3.1. Substances The plywood is made from natural, strongly pressed birch veneers. Broad birch, Betula Pendula. 3.2. Mixtures Not applicable		
Section 4. First aid measures 4.1. Description of first aid measures Inhalation: Product dust may be irritating to eyes, skin or respiratory system. In case of inhalation, move the person to the fresh air and seek medical attention. Consumption: Due to material form and application, ingestion is considered unlikely. May result in irritation of the digestive tract. In case of ingestion, consult a doctor. Skin contact: Contact with skin may cause irritation. If irritation develops, wash off with soap and plenty of water. Get medical attention if irritation persists Eye contact: Dust or splinters may cause irritation or injury to the eyes. Flush eyes with water. Consult a doctor immediately. 4.2. Most important symptoms and effects, both acute and delayed If the product gets into the eyes, tears, discomfort and temporary irritation may occur. 4.3. Indication of any immediate medical attention and special treatment of the injured. The decision on the rescue procedure is made by the doctor after a thorough assessment of the victim's condition. Symptomatic treatment.		
Section 5. Proceeding in the case of fire 5.1. Extinguishing agents Suitable extinguishing agents: water spray, dry chemical or carbon dioxide. 5.2. Special hazards arising from the substance or mixture Fire may produce irritating smoke. Avoid prolonged breathing of wood dust or decomposition products. 5.3. Advice for fire-fighters Firefighters should wear full protective clothing including self-contained breathing apparatus. Remove burned or wet dust to open, secure area after fire is extinguished.		
Section 6. Procedure in case of accidental release into the environment 6.1. Personal protection measures, protective equipment and emergency procedures. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Avoid inhalation of dust during clean up. 6.2. Environmental protection precautions not applicable 6.3. Methods and materials for containment and cleaning up Vacuum or wet sweep small wood pieces and dust; place in appropriate container for disposal. Gather larger pieces by an appropriate method. Reduce airborne dust by use of wet methods and prevent scattering by moistening with water. 6.4. Reference to other sections not applicable		

Section 7. Handling and storage of substances and mixtures 7.1. Safe handling precautions Provide appropriate exhaust ventilation at machinery and at places where dust can be generated. Keep away from heat and sources of ignition. Keep formation of airborne dusts to a minimum. Use personal protective equipment as appropriate. Avoid frequent or prolonged inhalation of wood dust. Avoid contact with skin, eyes and clothing. Wash hands thoroughly after handling. 7.2. Conditions for safe storage, including any incompatibilities Store flat, supported and protected from direct contact with the ground. Keep in a well-ventilated place. Store in a cool dry place. 7.3. Specific end uses Decorative.
Section 8. Exposure control/personal protection measures 8.1 Control parameters The product does not have any components with specified values of maximum permissible concentrations in the workplace (legal basis: Journal of Laws 2014, item 817, as amended). 8.2. Control of exposure Provide adequate general and local exhaust ventilation. Prevent sparks or other ignition sources in ventilation equipment. General dilution ventilation is recommended in processing and storage areas. Use wet methods, if appropriate, to reduce generation of dust. An eye wash station and safety shower should be located near the workstation.
Section 9. Physical and chemical properties AppearanceRigid boards or panels Smell: Wooden Smell threshold: Not applicable pH (for a 10% solution in H2O): Not applicable Melting/freezing temperature: Not applicable Initial boiling temperature and boiling range: Not applicable Flash point: Not applicable Evaporation rate: Not applicable Combustibility:A non-combustible product Upper explosion limit:No data available Lower explosion limit:No data available Vapor pressure:Not applicable Vapor density:Not applicable Relative density: No data available Water solubility:<0.1% The n-octanol/water partition coefficientNot applicable Self-ignition temperature: Not applicable Decomposition temperature:No data available Viscosity ratio (drain time measured with Ford viscosity cup 4 mm)Not applicable Explosive properties:No data available Oxidizing properties:No data available 9.2. Additional information No additional information available.
Section 10. Stability and reactivity 10.1. Reactivity None known. 10.2. Chemical stability The product is stable under recommended storage and handling conditions. 10.3. Possibility of hazardous reactions None. 10.4. Conditions to avoid Avoid direct sunlight, heat sources, fire. 10.5. Incompatible materials No data available 10.6. Hazardous products of decomposition Thermal decomposition may emit irritating fumes.

Section 11. Toxicological information

•Acute toxicity

Based on the available data, the classification criteria are not met.

•Skin corrosion/irritation

Based on the available data, the classification criteria are not met.

•Serious eye damage/irritation

Based on the available data, the classification criteria are not met.

•Respiratory or skin sensitisation

Based on the available data, the classification criteria are not met.

•Germ cell mutagenicity

Based on the available data, the classification criteria are not met.

•Carcinogenic effect

Based on the available data, the classification criteria are not met.

•Reproductive toxicity

Based on the available data, the classification criteria are not met.

•Specific target organ toxicity - single exposure

Based on available data, the classification criteria are not met.

•Target organ toxicity - repeated exposure

Based on available data, the classification criteria are not met.

•Aspiration hazard

Based on the available data, the classification criteria are not met.

Section 12. Environmental information

12.1. Toxicity

No information on undesirable effects and environmental hazards.

Do not allow to enter soil, sewage or ground water.

12.2. Durability and degradability:

No specific data available.

12.3. Bioaccumulative potential:

No specific data available.

12.4. Mobility in soil:

No specific data available.

12.5. Results of the PBT and vPvB assessment:

Not applicable.

12.6. Other adverse effects:

No specific data available.

Section 13. Waste management

Mixture recommendations: the product is natural and can be composted.

Recommendations for used packaging: recover / recycle / dispose of packaging waste in accordance with applicable regulations. Only completely emptied packaging may be recycled.

National legislation: OJ 2013 item 21 with later amendments, Dz. U. 2013, item 888 with later changes

Section 14. Transport information

14.1. UN number

n/a

14.2. UN proper shipping name

n/a

14.3. Transport hazard class

n/a

14.4. Packing group

n/a

14.5. Environmental hazard

The product does not pose a risk to the environment in accordance with the criteria set out in the UN Model Regulations.

14.6. Special precautions for users

To be transported in tightly closed containers.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

No data available.

Section 15. Legal regulations

15.1. Safety, health and environmental regulations specific for the substance or mixture

1. Act of 25 February 2011 on substances and their mixtures (uniform text: Journal of Laws of 2018 item 143);

2. Act of 14 December 2012 on waste (uniform text: Journal of Laws of 2013 no. 0 item 21, as amended);

3. Regulation of the Minister of Health of 20 April 2012 on the marking of hazardous substances and hazardous mixtures and particular mixtures

(consolidated text: Journal of Laws of 2012

item 445, as amended);

4. Regulation of the Minister of Labor and Social Policy of 6 June 2014 on maximum permissible concentration and intensity of factors harmful to health in the working environment (Journal of Laws of 2014 item 817 as amended);

5. Regulation of the Minister of Health of 30 December 2004 on occupational safety and health associated with the occurrence of chemical agents in the workplace (Journal of Laws of 2005, No. 11 item 86, as amended);

6. Ordinance of the Minister of Environment of 9 December 2014 on the waste catalog (Journal of Laws of 2014 item 1923);

7. Ordinance of the Minister of the Economy of 21 December 2005 on the fundamental requirements for means of personal protection (Journal of Laws of 2005, No. 259 item 2173);

8. The Act of 19 August 2011 on the transport of hazardous goods (uniform text: Journal of Laws of 2011, No. 227 item 1367, as amended);

9. Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 on REACH.

10. Regulation (EC) No. 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No. 1907/2006 (Official Journal of the European Union L335/1 of 31 December 2008, as amended);

11. Commission Regulation (EU) No. 2015/830 of 28 May 2015 amending Regulation (EC) No. 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

15.2. Chemical safety assessment

A chemical safety assessment has not been carried out for the mixture. OBCh was performed for the components of the mixture mentioned in point 3 of the safety data sheet.

Section 16. Other information

• Explanation of abbreviations and acronyms

PBT - Persistent, bioaccumulative and toxic substances

vPvB - Substances very persistent and very bioaccumulative

• Training courses

Before working with the product, the user should familiarize himself with the principles of occupational health and safety regarding the handling of chemicals, and in particular should receive appropriate training at the workplace.

• References to key literature and data sources

The safety data sheet has been prepared on the basis of literature data, internet databases and knowledge and experience, taking into account current legal regulations.

The above information is based on the currently available data describing the product and the experience and knowledge of the manufacturer in this respect. It does not constitute a qualitative description of the product or a promise of specific properties. It should be regarded as an aid to safe handling during transport, storage and use of the product. This does not release the user from any liability for misuse of the above information and from compliance with all applicable legal standards.
